

New Generation IsatDock2 Series

The BEAM **IsatDock2** docking solutions compliment the new Inmarsat IsatPhone 2 handheld satellite phone. The IsatDock2's utilise the latest in technology and have been specifically designed to enhance the user experience of the IsatPhone 2 for various land and maritime applications. All docks have external GPS and Inmarsat GSPS antenna connections. The docking units are the first of its kind and are type approved docks by Inmarsat for all applications.

IsatDock2 **LITE**

BEAM **IsatDock2 LITE** for Inmarsat's IsatPhone 2 allows for a semi-permanent installation, making the IsatPhone 2 'ready-to-go' and fully charged at all times. It is a versatile dock where easy access to standard voice and data services is required for land and maritime applications.

IsatDock2 **PRO**

BEAM **IsatDock2 PRO** is an intelligent docking station for the IsatPhone 2 specifically designed to support accessing voice services via Bluetooth, RJ11/POTS interface for corded/cordless phones or PABX, support for handsfree speakerphone or the privacy handset attached to the unit, making it ideal for fixed installations. The **IsatDock2 PRO** supports the Assistance Alert, Personal Alert and Tracking functionality of the IsatPhone 2 handset whilst docked.

IsatDock2 **DRIVE**

BEAM **IsatDock2 DRIVE** in-vehicle handsfree docking station, provides a high quality semi-permanent installation best suited for vehicular applications for the Inmarsat IsatPhone 2. The docking station has in-built echo cancelling and full duplex technologies to provide superior voice quality and professional handsfree or privacy calls.

IsatDock2 **MARINE**

BEAM **IsatDock2 MARINE** is an intelligent docking station for the IsatPhone 2 specifically designed for maritime applications. The MARINE dock supports voice services via Bluetooth, RJ11/POTS for corded phones or PABX support, handsfree speakerphone or the privacy handset. The handset is completely enclosed in the docking unit whilst still giving full access and functionality to the user. **IsatDock2 MARINE** supports the Assistance Alert, Personal Alert and Tracking functionality of the IsatPhone 2.
