Iridium Partner Communication

Certification Update: Iridium Edge®

Iridium Edge® continues to garner interest from existing and new Iridium customers around the world. It is an ideal solution for fleet management, telematics, safety and other remote monitoring applications that need to remain connected beyond cellular coverage. Iridium is pleased to announce that Iridium Edge is now certified in South Africa and Brazil. Other certifications previously in place include Europe/RED, FCC, Industrie Canada, and Australia. Learn more about how Iridium Edge can deliver reliable, cost-effective satellite IoT communications to keep assets connected anywhere in the world.
